Maria Maguire, MD, Health Officer

Dear Mr. Lankford,

Thank you for submitting your application for The Easton Airport Walk & Talk. The Talbot County Health Department Event Committee has carefully reviewed your application.

The COVID-19 Safety Plan you submitted indicated the following protocols and practices would be implemented at your event:

A) Face coverings:

There will be signs posted before the walk begins. Participants will be informed when they register as well. If a person does not follow those rules they will be asked to leave.

B) Physical distancing:

There will be signs posted before the walk begins. Participants will be informed when they register as well. If a person does not follow those rules they will be asked to leave.

C) Crowd management:

Two staff members will be walking with the group and enforcing the rules. Anybody violating the posted rules, CDC guidelines, or Executive Orders will be asked to leave.

D) Sanitization of surfaces:

There will be minimal touch points during the walk. Organizers will provide hand sanitizer during the walk and encourage folks to use it.

We have determined that your plan and these precautions follow both the Governor's Executive Orders regarding COVID and CDC best practices. Therefore, we approve the COVID-19 Safety Plan for your event.

Please contact us should your plans regarding this event change or if you have additional question ([talbot.events@maryland.gov](mailto:talbot.events@maryland.gov))

Thank you for your efforts to keep our community safe and healthy!

Talbot County Health Department Event Committee
